Took a product launch to **400% of target**, drove **+240% growth** on a turnaround brand, and built a new product to **#1 market share within two years**. Today I own a fully remote outbound motion selling a technical SaaS platform to CEOs and founders across the **UAE, Saudi Arabia and Egypt** — from prospect research and outreach to qualification, objection handling and pipeline management. A pharmacist by training and a Google-certified data analyst, I bring scientific rigour and data-driven account planning to every conversation.
